At Soul Purpose Lifestyle Company, we believe products should be “good” from the first ingredient to the last. That means, as a customer, never having to worry about putting anything harmful on your skin or in your hair.

Why Organic Skin Care?

They’re everywhere. In your eye cream. In your moisturizer. In your exfoliant, your firming serum, even your daily cleanser. They’re chemicals, and many experts fear they are causing damage to people on a daily basis. In-Cosmetics magazine reported in 2007 that the average woman absorbs nearly 5 pounds of chemicals from toiletries and makeup every year. Biochemist Richard Bence, who carried out the research published in the magazine, believes the chemicals contained in many everyday beauty products could be doing untold damage.

The solution?

Nurture—an all natural and organic skin care line from Soul Purpose Lifestyle Company that offers “1, 2, 3 plus 1” simplicity along with all the goodness of nature—and no harmful chemicals. Nurture cleansers, toners, moisturizers and serums are formulated with pure essential oils and other natural ingredients that will give you the skin you want and deserve: softer, firmer, more radiant, clearer and ... younger-looking.

Your skin absorbs what you put on it—it’s estimated 60 percent of a product’s ingredients are absorbed into your body. So if a product contains harmful or synthetic ingredients, you could be putting those chemicals into your body. And we don’t think that’s a good thing.

With nature as our guide, we are committed to developing products that nature would be proud to claim as its own. They are products that soothe and rejuvenate, condition and invigorate with every delightful scent and silky touch. Most important, Soul Purpose products are formulated with all of the goodness nature offers and none of the harmful ingredients created by today’s technology-savvy world.

Here’s what you will never find in a Soul Purpose product:

- Parabens
- GMOs (genetically modified organisms)
- Petrochemicals
- Phthalates
- Synthetic fragrances
- Synthetic dyes
- Triclosan

But you will find high concentrations of these natural ingredients:

- Antioxidants
- Botanicals
- Essential oils
- Fruit extracts
- Marine bioactives
- Minerals Vitamins

Soul Purpose is all about looking and feeling good and empowering people to be the magnificent individuals they were born to be. Nature is our teacher, our guide and our inspiration ... every formula, every product, every time.

MOISTURIZE
